H. H. Wetherspoon is an apple man, but he keeps a few hundred pigs to eat up the cull apples and the other stuff around the ranch and for the winter he has silos. The hog likes the green stuff in the winter just as well as a cow and does just about as well on it. The idea that silos are expensive should be discarded. He has three that cost only a small amount, \$120 for the lot, and they will hold 100 tons of silage. He thinks every ranch should have a silo.

C. E. KENYON WELL RECEIVED
IN NEW HOME AT WEISER

C. E. Kenyon, for years one of the solid business men of the state of Oregon, this morning officially assumed his duties as cashier of the Weiser Loan & Trust company of this city. At this time he is one of the heaviest stock holders in the institution which is one of the conditions he insisted upon before coming here. His block of stock is second only to that of E. A. Van Sickle. His purchase of stock was made some time ago but it was not until this morning that he had so arranged his other business as to be able to come here and take up this work in earnest.

About 60 days ago he purchased the Van Sickle bungalow occupied by George C. Bradley at the corner of Idaho and Third street, but some changes and repairs were made in the building and it was not until recently that he moved his family here.

There is to be no change in the personnel of the officials of the bank with the exception of the addition of Mr. Kenyon. Mr. Van Sickle will remain the president of the institution. Mr. Kenyon will be the cashier and Mr. Bradley will be the assistant cashier.

Mr. Kenyon has lived for years in Oregon and for the past twenty years has been identified with the business interests of the state. For twelve years he was interested in the Ontario bank, acting in the capacity of cashier of the firm. About a year ago he disposed of his interests there and since that time while not looking after his stock business he has been looking for a business location which suited him. He has practically covered the state of Oregon and much of Idaho and at last came to the conclusion that the advantages Weiser had to offer were the most promising he had seen.

His business experience will make him an addition to the city of Weiser which will be welcomed by all who are possessed with the desire to see the city grow and prosper. From his home town comes naught but the whisperings of regret that he is leaving it. —Weiser Signal.
